

Eyewash Station Mat

High-visibility anti-slip mat helps quickly identify emergency stations

The open space in front of emergency response stations and equipment is often viewed as empty space that can be used for storage. To remain OSHA and ANSI compliant, emergency response stations must remain unobstructed and visible.

The NoTrax Eyewash Station Mat is perfect for any emergency response station, including eyewash stations and showers. This emergency mat is highly visible with an anti-slip, waffle grid design that elevates users above hazardous overflow and assures rapid drainage.

- Gradual ramping reduces slips, trips, and falls
- Yellow ramps for high-visibility
- Green indicates first aid equipment
- Durable injection molded PVC
- No assembly required
- Conforms to ANSI Z535.1-1998 Standard
- Available in 5 sizes

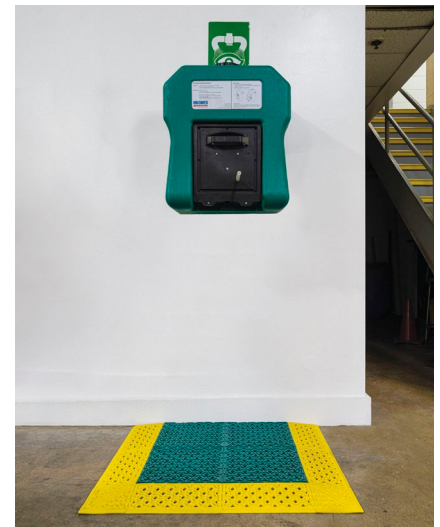

Stock Sizes	30" x 36", 30" x 48", 42" x 36", 42" x 48", 54" x 48"
Thickness	7/8"
Colors	 Green/Yellow

⚠ WARNING: This product can expose you to chemicals including di-2-ethylhexyl phthalate and/or diisononyl phthalate which is known to the State of California to cause cancer, birth defects or reproductive harm. For more information, visit www.P65Warnings.ca.gov.

Obstructed

Emergency stations are often blocked due to lack of visibility or awareness.

Accessible

High-visibility floor mat draws attention to alert and workers to the space around the emergency station.
