

Drainage Entrance Mat Oct-O-Flex™ 599

Product Images

Short Description

- Resilient natural rubber compound to remain flexible while withstanding extreme cold
- A smooth top surface, heavyweight construction
- Multi-hole drainage system channels water and debris away from walking surface
- Raised knob underside provides aeration, reduces mat movement
- Molded beveled edging on all 4 sides

Description

Oct-O-Flex™ is a heavy duty outdoor entrance mat made with tough SBR rubber to remain flexible and withstand extreme cold and the harshest of weather conditions. The unique design has holes to drain water and debris away from the entrance, while the smooth top surface and beveled edges on all four sides make it wheel chair and cart friendly. A raised knobby underside combined with the weight of the mat helps to eliminate mat movement. Oct-O-Flex™ is the perfect choice for outside high traffic areas such as schools, retail stores, hospitals, nursing homes, or any other area where cart or wheelchair traffic is common.

Specifications

Model No	599
